Impalila Natural Resource Report

A1

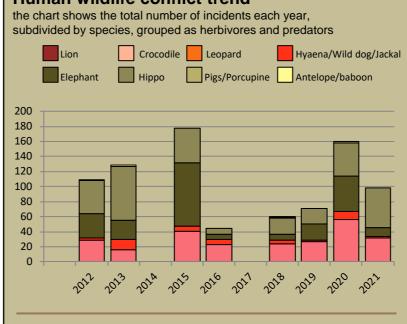

maximising wildlife returns by minimising threats...

Human wildlife conflict Performance Indicators Management performance in 2021 Human wildlife conflict trend Category **Performance** 1 Adequate staffing 2 Adequate expenditure 3 Audit attendance 180 160 4 NR management plan 140 5 Zonation 120 100 6 Leadership 80 60 7 Display of material 40 20 8 Event Book modules 9 Event Book quality 10 Compliance 11 Game census 12 Reporting & adaptive management 13 Law enforcement 14 Human Wildlife Conflict 50 15 Harvesting management 40 16 Sources of NR income 30 17 Benefits produced 20 18 Resource trends 10 19 Resource targets Crocodile Elephant Key to performance indicators weak/bad reasonable Performance is assessed on a scoring system from zero (none) to a

maximum of between 3 and 6 (strong/excellent) depending on the indicator.

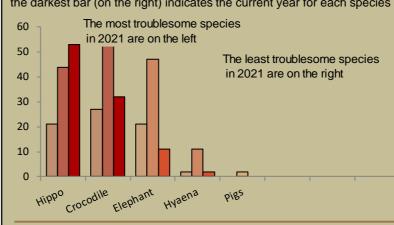

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

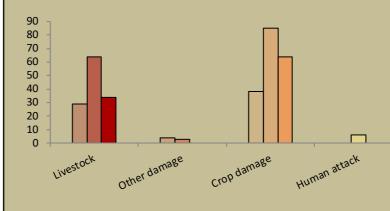

Most troublesome problem animals 2019-2021

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

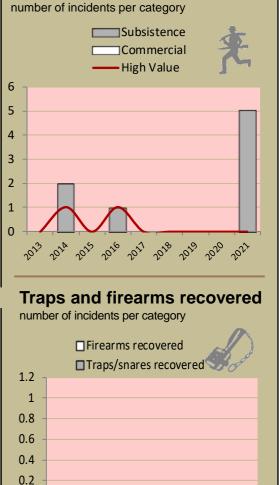

Type of damage by problem animals 2019-2021

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

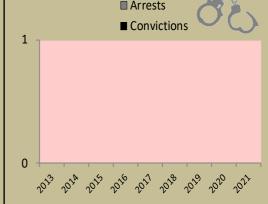

Number of incidents per year

Commercial poaching is a serious threat to

conservancy benefits. The chart shows the

Wildlife removals – quota use and value

Potential value estimates (N\$) for a single animal:

· Potential trophy value - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

• Potential other use value - the average meat value for common species

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years

b) is shared with other conservancies

	(Quota 2021			Animals actually used in 2021						Potential	
Species	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$	
Crocodile	3	2	1	2	1				3			
Elephant*	2	1	1		1				1			
Hippo	7	4	3	2	3				5		7,425

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	7	8	15
Number of Community Game Guards	3	4	7
Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category			Prev. Year	Explanation of performance category				
Member engagement				The conservancy is adequately engaging its members				
Benefit planning			The conservancy developed its BDP in a transparent and participatory manner					
Benefit distribution				The conservancy distributes benefits to its members in a fair, transparent and equitable manner				
Accountability			Conservancy members are holding the management committee accountable					
Stakeholder engagement				The conservancy maintains relationships with key external stakeholders				
Financial management				The conservancy is effectively managing its finances
