# maximising wildlife returns by minimising threats...

### **Performance Indicators**

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

reasonable

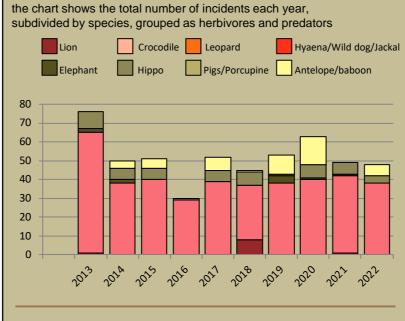

weak/bad

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

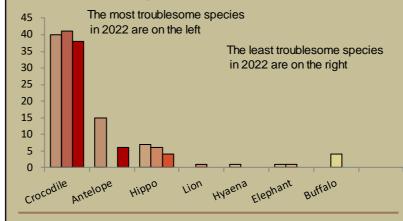

# **Human wildlife conflict**

**Human wildlife conflict trend** 

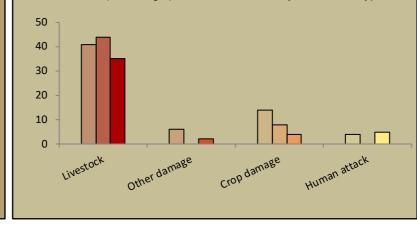

#### Most troublesome problem animals 2020-2022

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

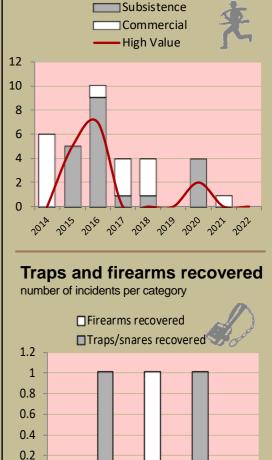

#### Type of damage by problem animals 2020-2022

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

# **Poaching**

Number of incidents per year

Commercial poaching is a serious threat to

conservancy benefits. The chart shows the

number of incidents per category

#### **Arrests and convictions**

2014 2015 2016 2017 2018 2018 2020 2020 2020

number of incidents per category

# Wildlife removals – quota use and value

# Potential value estimates (N\$) for a single animal:

• Potential trophy value - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

 Potential other use value - the average meat value for common species

or

the average live sale value of each high value species (indicated with an \*). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or

and/or
b) is shared with other conservancies

	(	Quota 2022	2		Anin	nals actua	ılly used i	n 2022		Pote	ntial
Species	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$
Buffalo	18	13	5	13	4				18	204,700	7,425
Crocodile	3	2	1	2	1				3	30,000	
Elephant*	2	1	1	1					1	491,200	85,860
Hippo	7	4	3	4	2				7	35,600	7,425
