

Muduva Nyangana Natural Resource Report

maximising wildlife returns by minimising threats...

Performance Indicators Management performance in 2020 Category **Performance** 1 Adequate staffing 2 Adequate expenditure 3 Audit attendance 4 NR management plan 5 Zonation 6 Leadership 7 Display of material 8 Event Book modules 9 Event Book quality 10 Compliance 11 Game census 12 Reporting & adaptive management 13 Law enforcement 14 Human Wildlife Conflict 15 Harvesting management 16 Sources of NR income 17 Benefits produced 18 Resource trends 19 Resource targets

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the

reasonable

Key to performance indicators

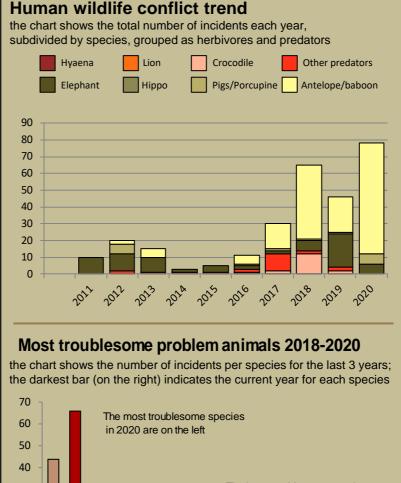

weak/bad

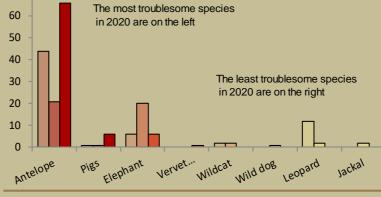

indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

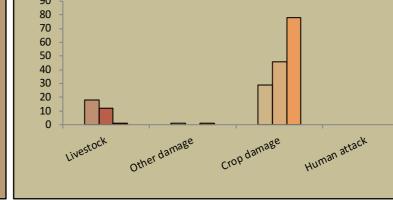

Human wildlife conflict

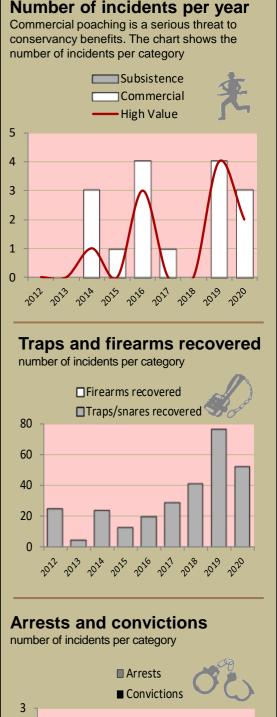

Type of damage by problem animals 2018-2020

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Wildlife removals - quota use and value

Potential value estimates (N\$) for a single animal:

• Potential trophy value - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

 Potential other use value - the average meat value for common species

or

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or

and/or
b) is shared with other conservancies

		Quota 2020	n	Animals actually used in 2020 Potential					atial		
Species	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot &		Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$
Duiker	2	1	1							2,300	189
Eland*	1.5	1.5		1					1		6,964
Elephant*	2.5	2	0.5	1					2	258,600	90,000
Gemsbok	5	2	3		2				2	3,700	2,916
Giraffe	2.5	1	1.5						1	6,800	15,120
Impala	2	1	1		1				1	1,500	918
Kudu	5	1	4		1				1	9,500	3,483
Leopard	0.166	0.166								40,600	
Roan*	1	1		1					1	75,300	62,250
Steenbok	0.5	0.5								3,500	
Warthog	2	1	1							2,300	540

A2

Increasing

monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

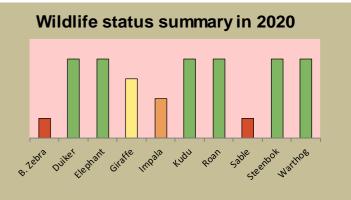

60

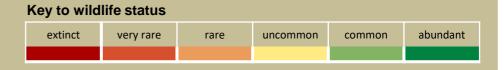

40

Desired Number - gives the species status in the conservancy based on what the conservancy would like to have

dark green (abundant) - reduce a lot; light green (common) - reduce a little; yellow (uncommon) - keep numbers the same; light orange (rare) - double numbers;

dark orange (very rare) - more than double numbers.

Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Per	formance Cate	egory	This Year	Prev. Year	Explanation of performance category					
1 Member engagement					The conservancy is adequately engaging its members					
2a Benefit planning					The conservancy developed its BDP in a transparent and participatory manner					
2b Benefit distribution					The conservancy distributes benefits to its members in a fair, transparent and equitable manner					
3 Accountability					Conservancy members are holding the management committee accountable					
4 Compliance					The conservancy is compliant with the standard operating proceedures (SOPs)					
5 Stakeholder engagement					The conservancy maintains relationships with key external stakeholders					
6 Financial management					The conservancy is effectively managing its finances
