

maximising wildlife returns by minimising threats...

Performance Indicators

Management performance in 2020

Category	Performance
1 Adequate staffing	
2 Adequate expenditure	
3 Audit attendance	
4 NR management plan	
5 Zonation	
6 Leadership	
7 Display of material	
8 Event Book modules	
9 Event Book quality	
10 Compliance	
11 Game census	
12 Reporting & adaptive management	
13 Law enforcement	
14 Human Wildlife Conflict	
15 Harvesting management	
16 Sources of NR income	
17 Benefits produced	
18 Resource trends	
19 Resource targets	

Key to performance indicators

weak/bad	reasonable	good

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Human wildlife conflict

Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Most troublesome problem animals 2018-2020

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2018-2020

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the number of incidents per category

Traps and firearms recovered

number of incidents per category

Arrests and convictions

number of incidents per category

Wildlife removals – quota use and value

Potential value estimates (N\$) for a single animal:	Species	Quota 2020			Animals actually used in 2020						Potential	
		Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$
<div><div>• Potential trophy value</div> - the average trophy value for that species in the conservancy landscape</div> <div>trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area</div> <div>• Potential other use value</div> - the average meat value for common species												

or

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e.

a) over a period of several years and/or

b) is shared with other conservancies

 Buffalo | 9 | 5 | 4 | 4 | | | | | 4 | 57,500 | 7,425 || | Duiker | 40 | 5 | 35 | | 1 | | | | 1 | 2,000 | 189 |
	Eland*	9	5	4	1					1		6,964
	Elephant*	9	5	4	4	2				6	339,800	90,000
	Gemsbok	30	10	20	2	1				3	6,300	2,916
	Kudu*	17	5	12	4	2				6	11,100	10,842
	Leopard	3	3								96,900	
	Ostrich	7	2	5							1,000	810
	Roan*	4	4		2					2	56,500	
	Springbok	10	5	5	1					1	1,900	702
	Steenbok	100	10	90		1				1	2,000	162
	Warthog	17	5	12							3,700	540
	Blue Wildebeest*	40	10	30		4				4	4,300	4,070
	Hartebeest	5	2	3								

Effective monitoring is key to understanding the status of wildlife in the conservancy and for the effective management of these resources.

Conservancies reduce environmental costs while increasing environmental returns. Returns from wildlife can far outweigh human wildlife conflict costs.

monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

Annual Game Count

Charts show the number of animals seen each year per 100 km of transect
Status flags reflect the general sightings trend over the last 5 years

No change

No change, rarely recorded

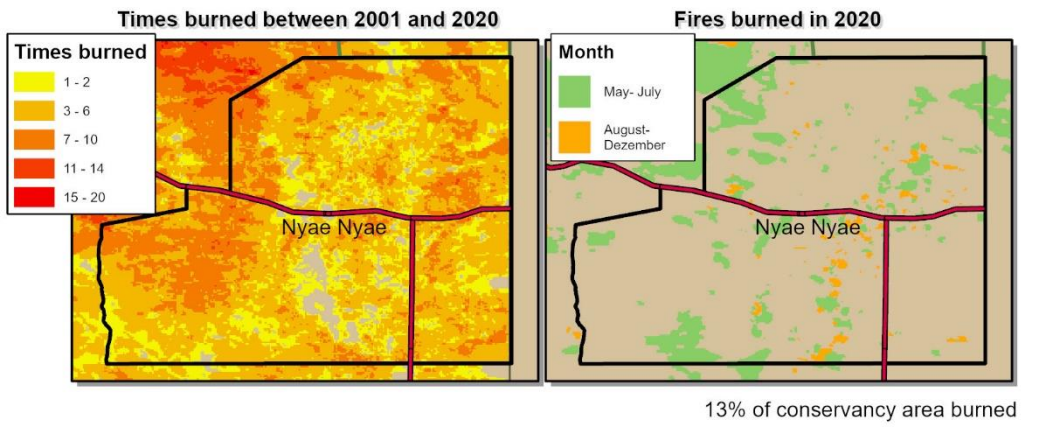

Increasing

Vegetation monitoring Buffalo camp

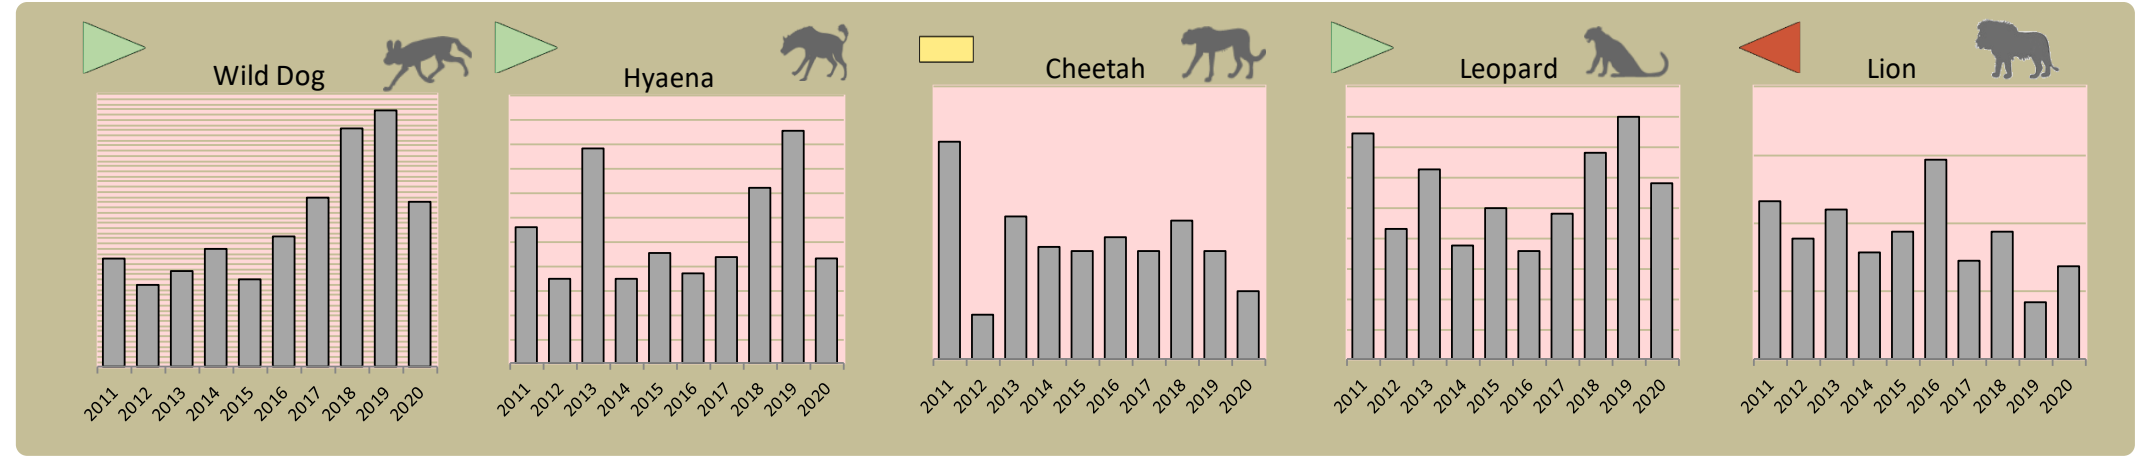

Fire monitoring

Predator monitoring

charts show the average number of animals seen per Event Book each year
Status flags reflect the general sightings trend over the last 5 years

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

Enabling wise conservancy governance...

Conservancy Statistics

Date Registered:	February 1998
Population (2011 census):	2550
Size (square kilometres):	8994
Registered members:	1680

Key Compliance Requirements

Was an AGM held?	✓
Were elections held?	N/A
Were benefits distributed according to the BDP?	✓
Is game managed according to the GMUP?	✓
Was the financial report presented and approved?	✓

Conservancy Governance

	Male	Female	Total
Number of management committee members	4	2	6
Attendance at AGM			
Date of the last AGM:	30/09/2020		
Date of the next AGM:	Sep-21		
Other important issues			
Budget approved?	✓		
Work plan approved?	✓		
Annual conservancy report approved?	✓		

Benefit Distribution

Type	Description	Beneficiary	Number
Community Devp.	Borehole Rehabilitation	Villages	15
	Seed Distribution	Villages	38
Cash Benefits	Cash Payments	People	1600
Social Benefits	Funeral Assistance	People	28
Meat Distribution	Household Consumption	People	38
Other Benefits	Hwc Offset		
	Ta Support	People	1

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	25	2	27
Number of Community Game Guards	14		14
Number of Community Resource Monitors			

Governance Performance Rating

How well did the conservancy perform in the past year?

<i>Performance Category</i>	<i>This Year</i>	<i>Prev. Year</i>	<i>Explanation of performance category</i>
1 Member engagement			The conservancy is adequately engaging its members
2a Benefit planning			The conservancy developed its BDP in a transparent and participatory manner
2b Benefit distribution			The conservancy distributes benefits to its members in a fair, transparent and equitable manner
3 Accountability			Conservancy members are holding the management committee accountable
4 Compliance			The conservancy is compliant with the standard operating proceeedures (SOPs)
5 Stakeholder engagement			The conservancy maintains relationships with key external stakeholders
6 Financial management			The conservancy is effectively managing its finances
