Okondjombo **Climate and Vegetation Report**

Adapting in response to the current environmental conditions ...

Seasonal trends in rainfall and vegetation (2021 / 2022 Season)

Vegetation cover trend (2000 - 2021)

High vegetation cover is good because more rainwater is prevented from running off, causing less erosion. Also the soil is shaded leading to a decrease in soil temperature and evaporation.

Vegetation productivity (February to April) 2022

Times burned

3 - 5

6 - 9 **10 - 13 =** >13

no fire monitoring

Burned area

When and where it burnt in 2021

April - July Aug - December

Management Options

-Do nothing

Forage availability

During the growing season enough forage must be

Climate and vegetation patterns assist in our understanding of the status of wildlife and livestock in the conservancy for the effective management of these resources.

Prevent late burns
