monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

Desired Number – gives the species status in the conservancy based on what the conservancy would like to have.

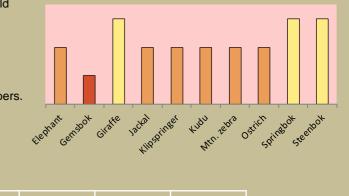

dark green (abundant) – reduce a lot; light green (common) – reduce a little; yellow (uncommon) – keep numbers the same;

light orange (rare) – double numbers; dark orange (very rare) – more than double numbers.

Key to wildlife status

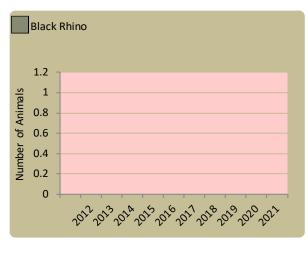

Increasing

Locally rare species

uncommon

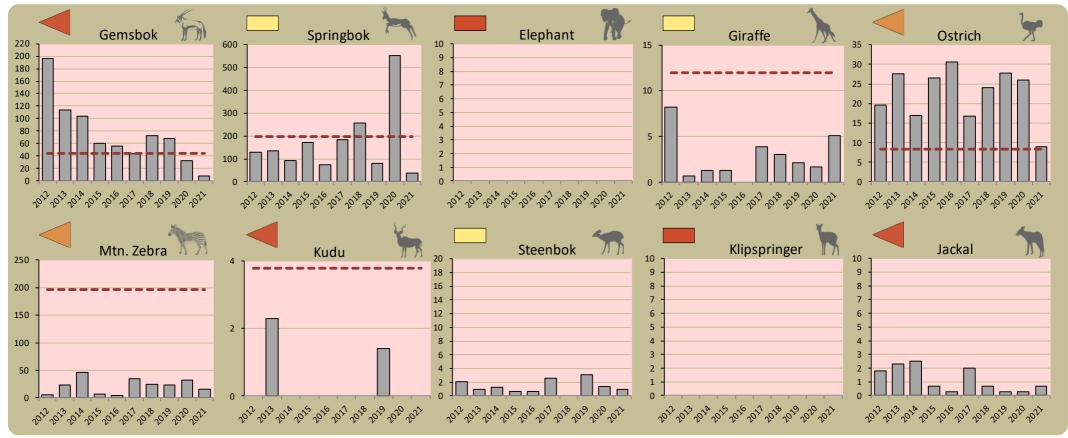

Annual game count

Charts show the number of animals seen each year per 100 km driven during the game count. As a point of reference the dashed horizontal line represents the combined 10 year average in Palmwag and Etendeka concessions. Status flags reflect the general count trend over the last 5 years.

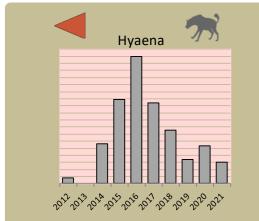

decreasing

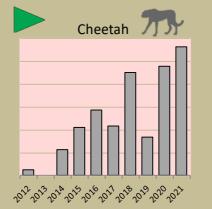

Locally rare species are not found very often in the conservancy and need special conservation attention.

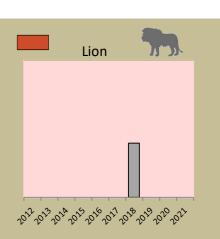

Predator monitoring

charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category			This Year	Prev. Year	Explanation of performance category					
Member engag	gement				The conservancy is adequately engaging its members					
Benefit plannir	ng				The conservancy developed its BDP in a transparent and participatory manner					
Benefit distrib	ution				The conservancy distributes benefits to its members in a fair, transparent and equitable manner					
Accountability					Conservancy members are holding the management committee accountable					
Stakeholder er	ngagement				The conservancy maintains relationships with key external stakeholders					
Financial mana	gement				The conservancy is effectively managing its finances
