maximising wildlife returns by minimising threats...

Performance Indicators

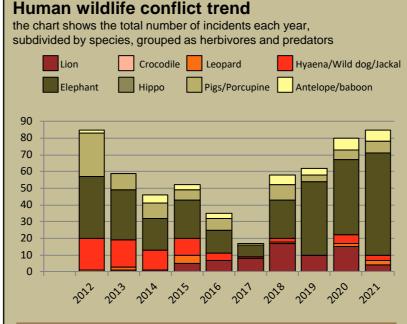

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

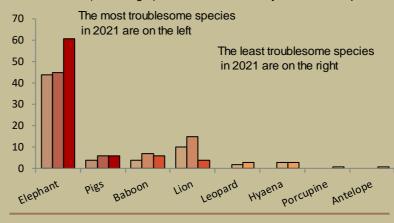

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Human wildlife conflict

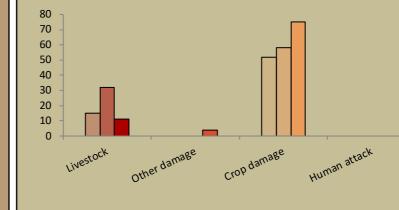

Most troublesome problem animals 2019-2021

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2019-2021

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the

number of incidents per category

Arrests and convictions

2012 2012 2012 2013 2013 2013 2013

number of incidents per category

Wildlife removals – quota use and value

Potential value estimates (N\$) for a single animal:

• Potential trophy value - the average trophy value for that species in the conservancy landscape

trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

• Potential other use value - the average meat value for common species

or

the average live sale value of each high value species (indicated with an *). High value species are never used for meat

Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or

and/or
b) is shared with other conservancies

Number of Community Resource Monitors			

Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category			This Year	Prev. Year	Explanation of performance category				
Member engagement					The conservancy is adequately engaging its members				
Benefit planning					The conservancy developed its BDP in a transparent and participatory manner				
Benefit distribution					The conservancy distributes benefits to its members in a fair, transparent and equitable manner				
Accountability					Conservancy members are holding the management committee accountable				
Stakeholder engagement					The conservancy maintains relationships with key external stakeholders				
Financial management					The conservancy is effectively managing its finances
