

maximising wildlife returns by minimising threats...

Performance Indicators

Management performance in 2022

Category	Performance
1 Adequate staffing	
2 Adequate expenditure	
3 Audit attendance	
4 NR management plan	
5 Zonation	
6 Leadership	
7 Display of material	
8 Event Book modules	
9 Event Book quality	
10 Compliance	
11 Game census	
12 Reporting & adaptive management	
13 Law enforcement	
14 Human Wildlife Conflict	
15 Harvesting management	
16 Sources of NR income	
17 Benefits produced	
18 Resource trends	
19 Resource targets	

Key to performance indicators

weak/bad

reasonable

good

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good rating in all 17 indicators.

Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Human wildlife conflict

Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Most troublesome problem animals 2020-2022

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2020-2022

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the number of incidents per category

Traps and firearms recovered

number of incidents per category

Arrests and convictions

number of incidents per category

Wildlife removals – quota use and value

Potential value estimates (N\$) for a single animal:	Species	Quota 2022			Animals actually used in 2022						Potential	
		Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use	Trophy Value N\$	Other use Value N\$
<div><div>Potential trophy value</div><div>the average trophy value for that species in the conservancy landscape</div><div>trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area</div><div>Potential other use value</div><div>the average live sale value of each high value species (indicated with an *). High value species are never used for meat</div><div>Fractions of animals indicate that a quota of 1 animal was awarded with conditions i.e. a) over a period of several years and/or b) is shared with other conservancies</div></div>	Baboon	5	5									
	Gemsbok	1	1								12,400	
	Giraffe	1	1								45,300	
	Leopard	0.33	0.33								133,500	
	Ostrich	3	2	1							11,000	810
	Springbok	12	6	6							8,300	702
	Mtn Zebra	5	3	2							20,100	4,482

Effective monitoring is key to understanding the status of wildlife in the conservancy and for the effective management of these resources.

Conservancies reduce environmental costs while increasing environmental returns. Returns from wildlife can far outweigh human wildlife conflict costs.

# monitoring numbers and trends for a healthy conservancy...

## Current wildlife numbers and status

Species	Animals Seen 2022	Estimated population range	Wildlife Status	
			Count Trend	Landscape Status
Elephant	1			
Gemsbok				
Giraffe	9	18 - 30		
Jackal				
Klipspringer				
Kudu				
Mtn. zebra	32	221 - 290		
Ostrich	31	142 - 250		
Springbok	24	158 - 370		
Steenbok				

Key to wildlife status

extinct

Very rare

rare

uncommon

common

abundant

Key to count trend

dark green – strong increase  
light green – slight increase  
yellow – more or less stable  
light orange – slight decline  
dark orange – strong decline

Wildlife status summary is based on both the species trend and its status in the landscape

Wildlife status summary in 2022

Wildlife introductions

Wildlife mortalities

Locally rare species

Flags

decreasing

No change

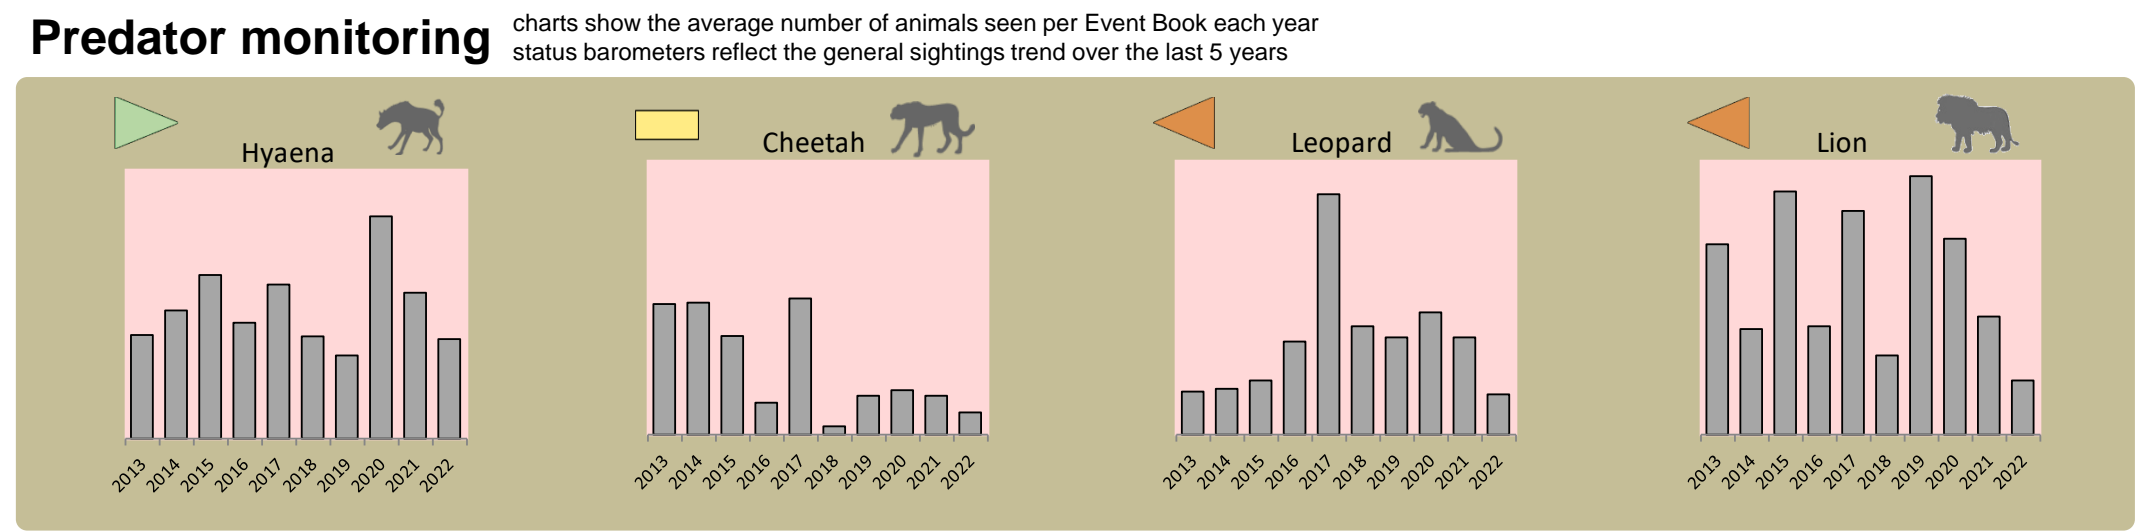

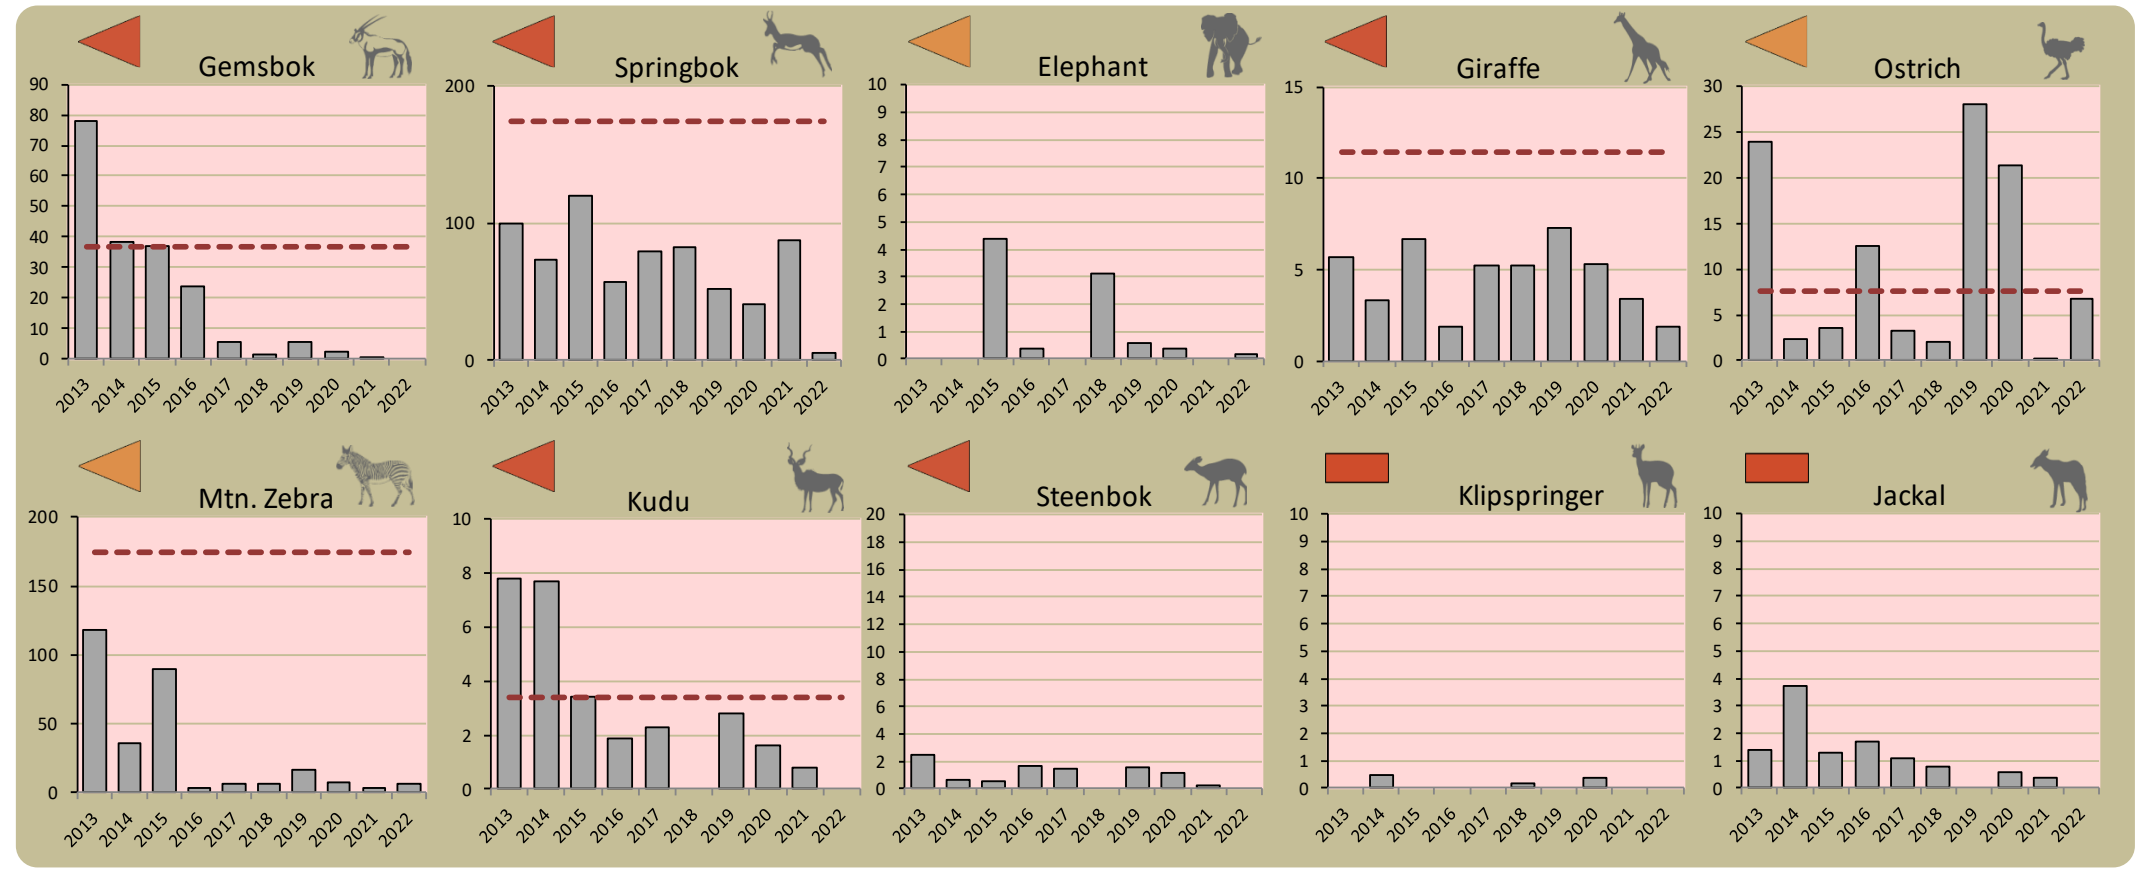

No change, rarely recorded

Increasing

Annual game count

Charts show the number of animals seen each year per 100 km driven during the game count. As a point of reference the dashed horizontal line represents the combined 10 year average in Palmwag and Etendeka concessions. Status flags reflect the general count trend over the last 5 years.

Locally rare species are not found very often in the conservancy and need special conservation attention.

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

## Enabling wise conservancy governance...

### Conservancy Statistics

Date Registered:	June 1998
Population (2011 census):	930
Size (square kilometres):	3493
Registered members:	610

### Key Compliance Requirements

Was an AGM held?	✓
Were elections held?	✓
Were benefits distributed according to the BDP?	✓
Is game managed according to the GMUP?	✓
Was the financial report presented and approved?	✓

### Conservancy Governance

	Male	Female	Total
Number of management committee members	4	3	7
Attendance at AGM	124	112	236
Date of the last AGM:	28/01/2023		
Date of the next AGM:	Jan-24		
Other important issues			
Budget approved?	✓		
Work plan approved?	✓		
Annual conservancy report approved?	✓		

### Benefit Distribution

Type	Description	Beneficiary	Number
Social Benefits	Funeral Support	Members	30
	School Donation	School Learners	100
	Support To Sport Tournament	Members	60
Meat Distribution	Game Meat	Households	194

### Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	20	6	26
Number of Community Game Guards	6	1	7
Number of Community Resource Monitors			

### Governance Performance Rating How well did the conservancy perform in the past year?

Performance Category	This Year	Prev. Year	Explanation of performance category
Member engagement			The conservancy is adequately engaging its members
Benefit planning			The conservancy developed its BDP in a transparent and participatory manner
Benefit distribution			The conservancy distributes benefits to its members in a fair, transparent and equitable manner
Accountability			Conservancy members are holding the management committee accountable
Stakeholder engagement			The conservancy maintains relationships with key external stakeholders
Financial management			The conservancy is effectively managing its finances
